

## CPD Series 2018/2019

---

All CPD must be booked in advance  
at [events@vermilion.co.uk](mailto:events@vermilion.co.uk)

At Vermilion, we are seeking to develop long-term working relationships with general dental practitioners.

Our courses are hosted at Vermilion and each session represents free, verifiable CPD.

## CPD Series – Based at Vermilion Edinburgh /

### British Women's Society of Implant Dentistry /

---

Monday 1st and Tuesday 2nd October 2018  
6.30pm – 8.00pm

#### Hosted by:

##### **Dr Franciska Veldhuizen**

BDS (Dund 1996) MFDS (RCSEd) MCLinDent MRD (RCSEd)  
Specialist in Prosthodontics. GDC Reg No. 72100

##### **Dr Verena Toedtling**

BDS (Dund 2007) MSc (OMFS) MFDS RCSEd M OralSurg RCSEng  
FHEA Specialist in Oral Surgery. GDC Reg No. 113501

The British Women's Society of Implant Dentistry (BWSID) is a not-for-profit association that sets out to inspire, empower and support women in the field of restorative implant dentistry.

They aim to bring women at the start of their implant journey together to create tight-knit, inspiring support groups that allow women to flourish in a comfortable, non-combative environment.

Each mentor group meets four times a year with an educational topic on the agenda to maintain a focus on personal development. Members can expect treatment planning, case discussion, guest speakers and hands-on restorative demonstrations that we hope will give our members added confidence and encourage them to incorporate implants into their everyday practice.

More information can be found at [www.bwsid.co.uk](http://www.bwsid.co.uk)

Fran and Verena are setting up the Edinburgh group at Vermilion. They are inviting female dentists, who are curious about implants, to come along to a free taster event over two evenings on Monday 1st and Tuesday 2nd October 2018 at Vermilion Edinburgh. From the taster event the details of the four modules running through the winter will be established. The cost of the programme is £150.

This exciting initiative builds on the progress made over the past five years by the Vermilion Implant Programme (VIP) which has up-skilled over 30 general dental practitioners to routinely offer single implant restoration at their own practices.

### Obturation in the dock /

#### The evidence for what we do

---

Monday 12th November 2018  
6.30pm – 8.00pm

#### Hosted by:

##### **Dr William McLean**

BDS (Wales 1997) BSc (Hons) BDS PhD PGDip (Endodontics)  
Practice limited to Endodontics. GDC Reg No. 72974

We are all acutely aware that we must engage in evidence based practice. However, how do we find time in our busy practice lives and indeed identify and gain access to relevant sources to help us understand how best we should act? This presentation will review the current evidence base for root canal obturation. It will look at what the evidence tells us is best practice and offer a number of practical solutions to help develop an optimal obturation protocol.

Featuring video footage captured by his operating microscope camera, Will sets out to demonstrate the principals of obturation and the materials and instrumentation choices that can facilitate clinical management of endodontic cases. If you are unable to attend this event, Will is very happy for dental colleagues to observe him consulting and treating patients at Vermilion Edinburgh.

## Orthodontics without Alginate /

---

Thursday 22nd November 2018  
6.30pm - 8.00pm

### Hosted by:

#### Dr Athanasios (Tom) Nasiopoulos

DDS (Thessaloniki 1986) MSc. PhD Specialist in Orthodontics.  
GDC Reg No. 82392

Tom uses digital impressions exclusively for his adult orthodontic case load. Working with the 3-Shape scanner and Invisalign allows him to correct malocclusions without the use of two things patients hate about orthodontics: endless impressions and orthodontic brackets. Tom will present the evidence around digital orthodontics and share what works and what does not work with intra-oral scanning and aligners.

#### Ορθοδοντική χωρίς αλγινικό αποτύπωμα

Πέμπτη 22 Νοεμβρίου 2018

Εισηγητής: Dr Αθανάσιος (Tom) Νασιόπουλος, Ορθοδοντικός

Ο Dr Νασιόπουλος χρησιμοποιεί αποκλειστικά ψηφιακά αποτυπώματα για τους ενήλικες ορθοδοντικούς ασθενείς του. Δουλεύοντας με τρισδιάστατο σαρωτή και Invisalign, του παρέχεται η δυνατότητα να διορθώσει την σύγκλιση αποφεύγοντας τα δύο πράγματα που αντιπαθούν οι ασθενείς στην ορθοδοντική: τα ατελείωτα αποτυπώματα και τα ορθοδοντικά σιδεράκια. Ο Dr Νασιόπουλος θα παρουσιάσει στοιχεία γύρω από την ψηφιακή ορθοδοντική και θα μοιραστεί με τους συμμετέχοντες τι λειτουργεί και τι όχι με την ενδοσωματική σάρωση και τους νάρθηκες (aligners).

## You can't build castles on sand! /

---

Monday 26th November 2018  
6.30pm - 8.00pm

### Hosted by:

#### Dr Louise O'Dowd

BDS (Dund 2002) MFDS RCS Ed MSc FDS (Rest Dent) RCS Ed  
Specialist in Restorative Dentistry Practice limited to Periodontics.  
GDC Reg No. 81046

Louise will discuss the importance of periodontal stability when planning restorative rehabilitation and the role of muco-gingival procedures and crown lengthening which can enhance the final prosthodontic and periodontal stability.

## Save the Date – The Vermilion Symposium /

---

Friday 7th June 2019  
9am - 5pm

Venue: Royal College of Physicians, Edinburgh

Keynote Speaker: Trevor Burke, Professor of Dental Primary Care,  
University of Birmingham School of Dentistry

## Oral Surgery /

---

Wednesday 23rd January and Wednesday 6th February 2019  
6.30pm - 8.00pm

### Hosted by:

#### **Dr David Offord**

BDS (Edin 1994) MFDS RCPS Dip.Con.Sed  
Specialist in Oral Surgery. GDC Reg No. 70169

#### **Dr Craig Mather**

BDS (Glasg 2002) MFDS RCS MSurgDent RCS Eng  
Specialist in Oral Surgery. GDC Reg No. 80809

#### **Dr Verena Toedtling**

BDS (Dund 2007) MSc (OMFS) MFDS RCSEd M OralSurg RCSEng FHEA  
Specialist in Oral Surgery. GDC Reg No. 113501

Over two evenings, and using a blend of didactic teaching and hands-on practicals, the three Vermilion Oral Surgeons will cover the following subjects:

- The prevalence of distal surface caries in the second molar adjacent to third molars – a systematic review and meta-analysis.
- Infective endocarditis and dentistry.
- Pharmacology update in relation to oral surgery.
- Oral surgery skills: Suturing, flap design, atraumatic extraction techniques.

## CPD Series – Based at Vermilion Kelso /

## Oral Surgery Journal Club /

---

Wednesday 3rd October 2018  
6.30pm - 7.30pm

### Hosted by:

#### **Dr Verena Toedtling**

BDS (Dund 2007) MSc (OMFS) MFDS RCSEd M OralSurg RCSEng FHEA  
Specialist in Oral Surgery. GDC Reg No. 113501

Verena is hosting a study club for GDPs who have an interest in oral surgery or who would like to learn more. The purpose of the study club is to bring dentists together in a supportive and comfortable environment to discuss cases and share knowledge. Verena aims to provide mentorship and support within the group and strengthen relationships within the Borders-based dental community.

The meetings take place on the first Wednesday evening of the month, starting 3rd October:

- Wednesday 3rd October 2018
- Wednesday 7th November 2018
- Wednesday 5th December 2018

## Case Selection in Endodontics /

---

Monday 22nd October 2018  
6.30pm - 8.00pm

### Hosted by:

#### Dr Neil Hallos

BDS (Lond 1981) LDS RCS (Eng) MFGDP (UK), MSc Endo (KCL)  
Practice limited to Endodontics. GDC Reg No. 56120

Endodontic Case Selection: making the correct choice for the journey. Neil will discuss patient factors that guide the dentist in endodontic decision making.

## Saving Marriages in the Borders! /

---

### The anti-snoring device

Tuesday 20th November 2018  
6.30pm - 7.30pm

### Hosted by Dr Alfred Dellow

MChD (Prost) BChD (Pretoria 1977) Specialist  
in Prosthodontics. GDC Reg No. 51007

Alfred is an avid believer in the anti-snoring device and will share his experiences and recommendations for your patients.

## Contemporary Management of Tooth Wear /

---

### Review of new restorative materials

Thursday 29th November 2018  
6.30pm - 8.00pm

### Hosted by:

#### Dr Grant Mathieson

BDS (Edin 1990) FDS MRD RCSEd Specialist in  
Prosthodontics. GDC Reg No. 65342

#### Dr Michael Davidson

Clinical Affairs Lead, Dentsplysirona, UK and Ireland

Toothwear is a problem which we see on a daily basis and its incidence is increasing for a variety of reasons. This presentation will review pragmatic treatment planning and discuss restorative materials relevant to the management of toothwear.

## Complete Denture Prosthodontics /

---

### Hosted by:

#### Dr Alfred Dellow

MChD (Prost) BChD (Pretoria 1977) Specialist in Prosthodontics.  
GDC Reg No. 51007

#### Dr Grant Mathieson

BDS (Edin 1990) FDS MRD RCSEd Specialist in Prosthodontics.  
GDC Reg No. 65342

A three-part course comprising clinical demonstrations and the theory behind conventional complete prosthodontics. Clinical demonstrations with patients, Grant and Alfred will compare specialist treatment with the challenges of NHS complete dentures.

Part 1: Tuesday 22nd January 2019  
6.30pm - 8.00pm

Assessment of the edentulous patient. Primary and master impressions - theory and practical.

Part 2: Tuesday 5th February 2019  
6.30pm - 8.00pm

Recording complete denture occlusion/registration.  
Trial of teeth and delivery of final prosthesis.

Part 3: Tuesday 19th February 2019  
6.30pm - 8.00pm

Problem solving and denture review including laboratory adjustments.  
Lecture on implant retained dentures.

## Implant Surgery /

---

Tuesday 12th March 2019  
1.45pm - 5.30pm

### Hosted by:

#### Dr David Offord

BDS (Edin 1994) MFDS RCPS Dip.Con.Sed  
Specialist in Oral Surgery. GDC Reg No. 70169

#### Dr Grant Mathieson

BDS (Edin 1990) FDS MRD RCSEd Specialist in Prosthodontics.  
GDC Reg No. 65342

#### Extraction with immediate implant and immediate provisional crown

Surgery 3 at Vermilion Borders has been designed to facilitate live learning days. Combining direct observation of surgery through a window to the seminar room with close-up movie footage on the big screen, delegates can get very close to the action without being in the same room as the patient.

David and Grant will treat a patient with a failing upper anterior tooth: from the planning stages featuring intra-oral scanner and CBCT, through extraction of the tooth and immediate implant placement to delivery of the immediate provisional crown.

## Observing Implant Surgery /

---

Dr David Offord, Specialist in Oral Surgery, works in Kelso on Tuesdays. He is very happy to have dental colleagues come over to observe both the consultation process and implant surgery. Please email our reception team at [kelso@vermillion.co.uk](mailto:kelso@vermillion.co.uk) to register your interest and we will arrange a suitable session for you to observe David and his team at work.

How to book your CPD: places are limited and you must register in advance. Please email [events@vermilion.co.uk](mailto:events@vermilion.co.uk) to book your place.

Please include your full name, practice address, email and telephone details. Please also include your GDC number so we can prepare your CPD certificate.

Please call our Edinburgh team on [0131 334 1802](tel:01313341802) or email [smile@vermilion.co.uk](mailto:smile@vermilion.co.uk)
